Three Point Contest Rules

Officials- There will be an official on the wings of the frontcourt to make sure that the shooter is behind the three point arc.

Set Up- There will be 3 racks of 5 balls (2 in the corner and 1 on top). A perfect score on round is 18. A shooter will start from one corner and after completing a rack will move on to the top rack. After complete the top rack the shooter will move to the remaining corner. Shooters will start where the previous shooter ended their round.

Time Limits- From the sound of the horn, the shooter will receive 45 seconds to complete all 3 racks (30 three point attempts)

Scoring- Each of the first 4 balls on each rack are worth 1 point each, with the 5th and final ball of each rack being worth 2 points.

Round 1- There will be two shooting opportunities in the first round (A total of 30 shots). The order contestants are chosen prior to the event. The score of the first opportunity will determine the order of the second opportunity. The order in this second opportunity will go in order of lowest score to highest.

The two contestants with the highest composite scores at the end of the first round will advance to the final round.

If the number of contestants is too great contestants may only get one opportunity to shoot. The staff will then select a number to move on based on highest scores.

Round 2- The finalists will have 1 opportunity to score as many points as possible in 45 seconds. The contestant with the highest score in this round will be determined as the winner.

Tiebreaker- If the score is tied at the end of the final a one rack shootout will take place until a winner can be determined.
